OFFICE NOTE.

SUBJECT.

Dispensary at Sollebail in the Kadur District

About the end of 1887, the planters in the Kadur Distruct undertook to contribute annually Rs 500 towards the cost of maintenance of a local fund dispensary, to be established at Sollebail besides a lump sum grant of Rs 425 towards the cost of the despensary building. and the Senior Surgeon accordingly recommended the establishment of a despensary at Sollebail. The proposal was sanctioned by the Govt in their Pros of 27/12/87 No $\frac{5762.4}{64}$. The contribution levied from planters is being credited to the D. F. from which the entire cost of the menial establishments, contingencies

country medicines and the charge allowance of the Hospital assistant are being met. (Pro Dy 31/10/89 etc 5899-901/77).

2. In their Pro Dy 24 February 1888 (etc 2664-67, the Govt sanctioned ~~estimates of Rs~~ the construction of a dispensary building at Sollebail at an estimated cost of Rs 3396, of which Rs 425 was required to be met from contribution promised by the Planters. But a portion of the latter sum viz Rs 125 was reported to be irrecoverable and the same was ordered to be written off the accounts. (Pro Dy 2-8-90 etc 4410-1/155).

3 The Secretary to the South Mysore Planters association states that the European planters in Sollebail and Hoppa have combined in forming a medical fund and employing and paying their own doctor and requests that they may be released from the payment of annual contribution promised by them for the maintenance of the Sollebail dispensary.

+ in his letter dated 5 Sept 1895

4. The Senior Surgeon simply transmits the letter without expressing his opinion in the matter.

Submitted

No. the Senior Surgeon recommends that the Planters' request may be granted. 16/9 JP

what I meant that the S.S. did not express reasons for his recommend

If the Planters have made their sufficient arrangement for their own & dependants' medical wants, why should the Dispensary be kept up at all? The whole premises by the association that the Dispensary was established solely for the benefit of the plantations and that the village is otherwise insignificant.

It appears more consistent to abolish the institution altogether.

17/9/95

The Undersecy.

It would look ungracious to abolish a Dispensary wh has been in existence for 7 years. Although the proposal to remove the benefits of the Dispensary in addition to the aid the Planters may place at the disposal of their Coolies. It is a free dispensary that will otherwise go to rot & we may expect the place to develop & be fostered, & one can afford to be generous even to a small population.

- Latour. Subd Sec.

Note.

Sollekail is a small village in the Koppa Taluk and is situate on the trunk road between Balekonnur and Koppa. There are a few large Coffee plantations round it to which it owes its importance. At the request of the European Coffee planters and on their undertaking to contribute 600 Rs annually to the cost of maintenance, a good dispensary building was put up in 1886. The Contribution of 500 Rs is collected along with Land Revenue. The Dispensary is chiefly useful to Estate Coolies & the Planters. The Planters now say they have made other arrangements for Medical advice & assistance. The expenditure from Dt. Funds on the Dispensary is nearly 500 Rs which the Contribution covers, while the expenditure from Provincial Funds is about 760 Rs.

The question is whether in a place inhabited by about 300 people mostly estate coolies it is worth while maintaining a dispensary when there is where special benefit it was intended have made other efficient arrangements for medical help for themselves & their coolies and desire to be relieved from the Contribution voluntarily offered by them. Technically speaking the Planters are bound to Continue their Contribution, on the strength of which Govt incurred such last Expense, but I do not think it worth while to force a Contribution, now that they must naturally feel it irksome and irritating. On the whole it would be good policy to be generous and liberal in a matter of this

Read & I beg to submit for approval the following draft

Order.

The Govt are pleased to remit, the annual contribution of 500 Rs in Consideration of which a Dispensary was opened in Lollchaut for the special benefit of their estates. The Dispensary will, in future continue to be maintained solely from Dt & Provincial Funds as in the case of other G. D. Dispensaries in the Province. This order will take effect from 1st July 1896.

in favour of the Planters round Lollchaut
